Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Discussed with Applicant's representative the previously submitted Declaration under 37 CFR 1.131 and the availability history of CheckFree's Recon-Plus for Windows reconciliation system. Regarding the prior availability of the Recon-Plus for Windows system, the Examiner noted that CheckFree's form 10K SEC filing states that the software was introduced in 1995. Regarding the Declaration, Examiner noted that the allegation of the meeting on February 16, 2000 of the Applicant with his attorney lacked sufficient evidentiary support, thus creating a potential issue with the diligence argument. Examiner further noted that the Declaration appeared to be limited to showing one-to-many and many-to-one matching and also lacked any showing of the manner in which matches were determined or a recursive submethod. The Examiner re-affirmed the previously noted indication of allowable subject matter subject to the normal review procedures of the Patent Office upon allowance. Applicant's representative indicated he would discuss the issues with the client and respond in due course.
